

PRIMETIME HEALTH OFFERS PROGRAM ON HOUSEHOLD AND GARDEN POISONS

What is a poison? What are the most dangerous poisons? How do poisonings happen and what can individuals do if they or a family member is poisoned? There are over two million poison exposures reported each year in the United States.

The Clearfield County Area Agency on Aging's PrimeTime Health Program will be addressing the issue of household and garden poisons during the month of July at its Centers for Active Living, at the DuBois Senior and Community Center, and at the Houtzdale Family Service Center. Individuals who are 50 years of age or older will find this program to be useful and are encouraged to attend.

The schedule is as follows: July 2 at 12:30 p.m., Coalport Center for Active Living; July 3 at 11:30 a.m., Mahaffey Center for Active Living; July 10 at 11:30 a.m., Houtzdale Family Service Center; July 12 at 11:30 a.m., Kylertown Center for Active Living; July 12 at 12:30 p.m., Karthaus Center for Active Living; July 20 at 11:30 a.m., DuBois Senior and Community Center; and July 25 at 11:30 a.m., Clearfield Center for Active Living.

Those individuals who are interested in eating lunch at one of the centers are asked to call at least one day before the date of the program to make their reservation. Any individual over the age of 60 may reserve a lunch and contribute to the cost of the meal on a donation basis. Anyone under 60 will be asked to contribute \$3.00 towards the cost of the meal. For more information, call your local Center for Active Living or the CCAAA at 765-2696 or 1-800-225-8571.
